THE ART OF BIG DREAMS

## ★ INTRODUCTION ★

**B**obi Craft is a market leader in exporting branded premium hand crochet children toys and accessories using top quality material (wool, organic cotton and acrylic yarn). All of Bobi Craft's products are manufactured in line with the EN71 standard, the set of specific safety requirements for toys sold in the European Union.

At Bobi Craft, we design, manufacture and distribute to domestic and overseas markets (US, UK, EU, Japan, Singapore, etc...) All our products are made entirely by hand, with the love from our skilled handcraftsmen. With six years of experience doing business since 2011, we strongly believe in our capability to meet and satisfy all the highest of expectation.

## ★ THE BOBI CONCEPT ★

**B**obi Craft was born from the love of handmade items. Our ultimate goal is to bring wool and fabric craft to a stage of art and uniqueness as well as supporting poor and disadvantaged people to have better lives. We aim to foster playing environment for children worldwide with traditional values where the whole family can spend enjoyable time bonding together.

Bobi Craft's toys bring along their cuteness and help children to experience the non-digital world. We have also created a series of bedtime-story books enclosed with each character. We hope toys and stories will bring calmness and inspiration to your children's imagination against the fear of the unknown hiding in the corner of their creative minds.

... "If you want your children to be intelligent, read them fairy tales. If you want them to be more intelligent, read them more fairy tales" - **A. Einstein** -

**T**o develop an international standard of premium quality handmade yarn products, to bring a unique beauty to life through our wide range of toys, gifts and other children's products. To create jobs, train skills and bring up fair pay for low income people, especially handicaps and unfortunate cases.

## ★ BUSINESS CULTURE ★

**W**e are a team of more than 50 young people who love handmade crafting at heart with the passion for details and the enthusiasm for the highest of standards.

We aim to create a friendly and open working environment to provide the best place where people could grow their love for creativity and art work.

Our fair working condition is also what we are always proud of, with equal opportunities for women and disabled people to develop their career.

## ★ THE DREAM GUARDIAN CONCEPT ★

**L**ike no other plush toys, The Dream Guardians are unique and different. Each of them is 100% handmade using high-quality yarn; therefore, they are machine washable and are life-time warranted. Our toys are produced in line with the EN71 standard, the set of specific safety requirements for toys sold in the European Union. And they are safe for children of all ages, even infants.

The Dream Guardians' sophisticated knitting and adorable looks will win the heart of any children. By hugging them, children will experience the greatest softness which only comes from a wool product. Each dream guardian has their own family along with their bed-time story book for a sweeter dream. Besides, children could color the books as they enjoy. There are 8 bed-time stories about the Dream Guardians to read, and various accessories such as hats and shoes to collect.

The dream guardians are a team of 8 guardians including a fox couple, a bear couple, a sheep couple, a lion and mother-and-son kangaroos. Their missions are protecting children from evil forces so that they sleep well at night. They are children's best friends at day time. When the night comes, they turn into powerful guardians. With these guys guarding around children, they will not be afraid of the dark night anymore.

Let's collect a set of The Dream Guardians including 8 characters and 8 bed-time story books. Each of the characters has different power and ability to fight against different evil forces. Now stop reading and go meet the guardians.

Remember that time when you were a little child, when your grandmother would knit you colourful sweaters, and you wanted to learn to knit? So do I, but it might take ages for us to knit our favourite teddy bear (or piggy, or bunny), and even then, they might not look very nice. Sad, isn't it. But hey, is that a Bobi Craft's DIY kit I'm looking at? Awesome, let's dig right in, shall we?

THE ART OF BIG DREAMS

In times long past, the people of old thought dreams were portals to the spiritual world, where sleepers are offered glimpses of their fates and their most subtle of wishes. For children, those whose time in the world has been a brief one at best, though, dreams mean much more than blurred visions. They are recreations of their lives, vivid, colourful and pure, and bad dreams can do greater harms to children than one might think.

**The Dream Guardians** have thus been of great and leal service to countless generations of children from times long since gone; and now in your hands are their embodiments in this plane, to protect your most preciouses against evils.

Take good care of them, and they will in turn offer your children their hearts, souls and service.
